Response to the Passage of Amendment 4

Joint Statement by Senate President-Designate Tom Lee and House Speaker-Designate Allan Bense

TALLAHASSEE, Fla. – It appears that Amendment 4 has passed. The Legislature now has the responsibility to implement the will of the people, not only as it relates to Amendment 4, but for all the initiatives passed this election cycle.

The Florida Senate and House of Representatives will look carefully at the promises made to voters as we construct policies to implement these constitutional amendments. We are committed to making sure that Floridians expectations are honored.
